

Goal 1: Technology Professional Development Plan

Measurable Objective 1:

demonstrate a proficiency in technology by participating in directed professional development focused on expanding the use of technology in our classrooms by 06/30/2015 as measured by teachers completing a minimum of 10 hours of professional development focused on technology.

Strategy 1:

Online webinars - We will research available online webinars and workshops and provide the staff with information regarding schedule, topic, and registration. Online webinars will allow the staff to choose preferred topics and also to participate in professional development at a convenient time.
